

Bid Smart 2019 Summit

What's New About Competitive Bidding? **EVERYTHING**

Attend the June 5 Competitive Bidding Summit to Get Prepared for Round 2021!

Join industry insiders for an in-depth discussion about major changes to DME Competitive Bidding. During the day-long workshop, we will discuss in detail the brand new bid process —including lead item bidding and pricing, higher bid ceilings, clearing bid pricing, bid surety bonds, and how the bid rates will establish rates in non-competitive bidding areas (non-CBAs).

The bid window is opening July 16 and will only be open for 60 days - so now is the time to get educated on all the details you need to know to submit a smart bid.

Industry experts will highlight new calculator tools and share their insights, tips, and strategies for this new round of Competitive Bidding so you can be prepared to bid in Round 2021. This is also an opportunity to ask – and get answers to – your specific questions about the upcoming Competitive Bidding Program. Speakers to include:

- Cara Bachenheimer, Government Affairs Practice, Brown & Fortunato
- Kim Brummett, Vice President Regulatory Affairs, American Association for Homecare
- Mark J. Higley, Vice President Regulatory Affairs, VGM Group, Inc.

Seating is limited. Reserve your spot by registering today!
